Walter Tedick

Mr. Tedick, who died unexpectedly in December, was a faculty member at Broome Tech for 20 years; he was also manager of the College Bookstore for 18 years. He was official timer at the home basketball games for 17 seasons. His latest idea was to paint the figure of a hornet on the mid-court of our gym.

"Every day we all take a trip;
Not a 15¢ one on a subway
But one around the school.
Some of us notice,
Others — well, they exist.
I took the trip around the school
that I take every day,
Only this time I tried to make
myself be more aware
Of the things around me.
I saw a different school than
that one of
Halls I'd walked
And desks I'd sat in before.
I even noticed the cool breeze
that frequently enters the
mall and
Gently sways the trees and
plants
In the garden.

"As I walked my mind began to
wander.
It thought about time — how it
runs so fast and will not
Stop for anyone.
For it belongs to the sun and
only the sun will determine
Its destination
Seems like yesterday, we all
seem to say.
Yesterday. When we were small
and Mommy and Daddy held
Our hands and we lived in a
world of fantasy.
But what was fantasy then is
reality now.
Today is today — now is now.
And tomorrow today will be
yesterday.

For we are merely the recipients
of time.
We are growing up
And every day the world has
something new in store for
us,
If we would only take the time
to find it.

"I saw the same old people I
had known for years,
But this time I saw the
Individual personality among
the masses.
I saw new faces —
New because this time I could
see the minds
Behind them.
I noticed that some of these
people
Had found themselves.

"They knew what they wanted
from life —
And they all tried to achieve
their goals
They all had something
To talk about —
Either ideas to express
Or opinions to suggest.
I overheard some talking about
the war
In Vietnam . . .
And the new
Generation gap . . .

"There were others, still,
Who thought about different
things.
They talked about the game

Friday night,
Last night's homework,
Or the victory dance.
They followed the fads and
were extra friendly to
everyone,
For popularity was their thing,
And they were happy.
Yes, I saw many types of people
that day —
But they all seemed to belong
To two distinct groups.
Either social or anti-social.
And they each seemed to be
condemning
The other for their
Belief.

"But why worry about someone
else's beliefs,
As long as I am content with
mine?
We all have our own ideas
about life,
And no matter what one
Believer
If he is truly happy
Then it is a beautiful thing,
indeed.

"And as I walked past the
classrooms,
I didn't see "teachers" anymore.
Nor did I see 'students.'
Instead I saw a person who had
Acquired a quantity of
knowledge sharing
It with those who hadn't found
it yet.

"An in the library I didn't
See the books anymore.
Instead I saw a library
Filled with love.
Love of the minds to read
The words
And love of the words to
Inform the minds.

"I saw love in the eyes of the
Mathematician for his equation;
Love in the eyes of the
Artist for his paint;

"Love in the eyes of the
Singer for his song;
And love in the eyes of the
Scientist for his problems.

"I began to see things more
clearly,
And as I neared the end of my
trip I still wondered
What it was all about —
Were time had gone.
But then I realized
That as long as the sun keeps
shining
Time will not run out —
So why not sit back and enjoy
life
By finding all the beautiful
things it
Has for everyone."
